CONTENTS OF VOLUME 364

July 1985

FITZGERALD Maria The post-natal development of cutaneous afferent fibre input and receptive field organization in the rat dorsal horn. 1

ANDERSON D.J., HECTOR M.P. & LINDEN R.W.A. The possible relation between mastication and parotid secretion in the rabbit. 19

NGU M.C. Activation of enteric nerve pathways in the guinea-pig duodenum by cholecystokinin octapeptide and pentagastrin. 31

RUBANYI Gabor M. & VANHOUTTE Paul M. Hypoxia releases a vasoconstrictor substance from the canine vascular endothelium. 45

KULLBERG R., OWENS J.L. & VICKERS J. Development of synaptic currents in immobilized muscle of *Xenopus laevis*. 57

CAREY Hannah V., COOKE Helen J. & ZAFIROVA Maia Mucosal responses evoked by stimulation of ganglion cell somas in the submucosal plexus of the guinea-pig ileum. 69

BURKE W., BURNE J.A. & MARTIN P.R. Selective block of Y optic nerve fibres in the cat and the occurrence of inhibition in the lateral geniculate nucleus. 81

BELL C., JÄNIG W., KÜMMEL H. & XU H. Differentiation of vasodilator and sudomotor responses in the cat paw pad to preganglionic sympathetic stimulation. 93

NIIJIMA Akira Blood glucose levels modulate efferent activity in the vagal supply to the rat liver. 105

MITCHELL M.R., POWELL T., TERRAR D.A. & TWIST V.W. Influence of a change in stimulation rate on action potentials, currents and contractions in rat ventricular cells. 113

KIM Donghee & SMITH Thomas W. Effects of thyroid hormone on calcium handling in cultured chick ventricular cells. 131

CASTEELS R. & DROOGMANS G. Dependence on calcium of potassium- and agonist-induced changes in potassium permeability of rabbit ear artery. 151

ALLEN D.G., EISNER D.A., PIROLO J.S. & SMITH G.L. The relationship between intracellular calcium and contraction in calcium-overloaded ferret papillary muscles. 169

BACHOO Manjit & POLOSA Canio Properties of a sympatho-inhibitory and vasodilator reflex evoked by superior laryngeal nerve afferents in the cat. 183

BINDER Marc D. & OSBORN Connie E. Interactions between motor units and Golgi tendon organs in the tibialis posterior muscle of the cat. 199

MAYER Mark L. A calcium-activated chloride current generates the after-depolarization of rat sensory neurones in culture. 217

QIU J.P. & WONG P.Y.D. Secretion of *p*-aminohippurate by the rat epididymis. 241

COOK Alison J. & WOOLF Clifford J. Cutaneous receptive field and morphological properties of hamstring flexor α-motoneurones in the rat. 249

NORTH R.A. & WILLIAMS J.T. On the potassium conductance increased by opioids in rat locus coeruleus neurones. 265

BLOOM S.R. & EDWARDS A.V. Pancreatic neuroendocrine responses to butyrate in conscious sheep. 281

LUMBERS Eugenie R., SMITH Francine G. & STEVENS A.D. Measurement of net transplacental transfer of fluid to the fetal sheep. 289

ANDRES H., BOCK R., BRIDGES R.J., RUMMEL W. & SCHREINER J. Submucosal plexus and electrolyte transport across rat colonic mucosa. 301

EISNER D.A. & VALDEOLMILLOS M. The mechanism of the increase of tonic tension produced by caffeine in sheep cardiac Purkinje fibres. 313

SCHLUE W.R. & THOMAS R.C. A dual mechanism for intracellular pH regulation by leech neurones. 327

STANDEN N.B., STANFIELD P.R. & WARD T.A. Properties of single potassium channels in vesicles formed from the sarcolemma of frog skeletal muscle. 339

CRAWFORD A.C. & FETTIPLACE R. The mechanical properties of ciliary bundles of turtle cochlear hair cells. 359

BOLSOVER S.R. & BROWN J.E. Calcium ion, an intracellular messenger of light adaptation, also participates in excitation of *Limulus* photoreceptors. 381

LEE Kai S., MARBAN Eduardo & TSIEN Richard W. Inactivation of calcium channels in mammalian heart cells: joint dependence on membrane potential and intracellular calcium. 395

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

22–23 *February* 1985

Bristol Meeting

DEMONSTRATIONS

Cervero F. D.A.M.N.: A data analysis monitor for neurophysiology. 2*P*

Plenderleith M.B. Peripheral and central inputs to dorsal-horn neurones in the rat. 3*P*

Ashmore J.F. Measurement of hair cell movements using a linear position detector. 4*P*

Bagust J., Brown I.D. & Kerkut G.A. Use of microcomputers in undergraduate laboratory classes. 5*P*

Headley P.M. & West D.C. A simple device for interfacing a spike counter and an RML 380Z microcomputer. 6*P*

Headley P.M., Parsons C.G. & West D.C. A set of 'BASIC' programs for the on-line analysis of neuronal spike-firing data. 7*P*

Rickard M.J. & Thomas R.C. Microcomputer system for simultaneous solution switching and data collection for experiments with ion-sensitive micro-electrodes. 8*P*

McAllen R.M. & Woollard S. 'Tungsten plus glass' multibarrel electrodes. 9*P*

Al-Amood W.S. & Lewis D.M. Method for chronic stimulation of denervated muscle in the rat. 10*P*

Chamberlain S. Single motor units in the rat. 11*P*

Brooks D. Single motor unit recording during locomotion in the cat. 12*P*

Lawson S.N. & Waddell P.J. Intracellular recordings from rat primary afferent neurones with known peripheral and central conduction velocities *in vitro*. 13*P*

Jones S.P. & Ridge R.M.A.P. The low safety factor of neuromuscular transmission in neonatal rats. 14*P*

Lisney S.J.W. Regeneration of unmyelinated nerve fibres in the rat saphenous nerve. 15*P*

Lisney S.J.W. & Pover Carolyn M. The use of some sampling schemes to determine the number of myelinated nerve fibres in a unifascicular nerve trunk. 16*P*

Matthews B., Pamplin P.J. & Shellis R.P. The size and distribution of mechanoreceptive fields in cat dentine. 17*P*

Matthews B. & Robinson P.P. Sympathetic fibres in the facial nerve of the cat. 18*P*

Clarke R.W., Matthews B. & Rogers I.P. On the construction of oxygen micro-electrodes. 19*P*

Coghlan B.A., Matthews B. & Pigott R.W. A method for measuring facial asymmetry. 20*P*

Clark C.E. & Matthews B. The effects of extracellular calcium concentration on axonal coupling in rat peripheral nerves. 21*P*

Draper N., Frampton J. & Matthews B. The effects of menthol on peripheral nerve conduction in the rat. 22*P*

Wheal H.V. A microcomputer simulation of the Hodgkin–Huxley model for membrane current. 23*P*

Clarke G. & MacMillan Susan J. An electrophysiological demonstration of rat subfornical organ neurones projecting to the supraoptic nucleus. 24*P*

Bush B.M.H. & Head S.I. Proprioceptive reflex integration in the shore crab: an isolated ganglion-muscle-joint receptor preparation. 25*P*

Sillar K.T. & Skorupski P. Phase-dependent central modulation of proprioceptive input to crayfish walking-leg motoneurones. 26*P*

Leendertz J.A. & Wakerley J.B. A simple program for generating post-stimulus time-interval histograms on the BBC microcomputer. 27*P*

COMMUNICATIONS

Hancock Jane Motor cortical discharges and locomotion in the cat. 28*P*

Edgley S.A. & Lidierth M. Discharges of putative Golgi cells in the cerebellar cortex during locomotion in the cat. 29*P*
